

REDUCE THE JUICE

Shelburne's First Community Energy Conference

Come and hear about Energy issues around the world and what our community is doing about them!

Special Guest Speakers:

Alistair Miller- Senior Scientific Associate of AECL and former president of the Canadian society of chemical engineering, Mr. Miller will speak on "climate change and its implications."

William Tharp- CEO Quantum Leap Company, merchant banker and entrepreneur in the energy and efficiency marketplace, Mr. Tharp will be talking about "energy technology challenges and solutions."

We will also be presenting the launch of Shelburne's **Reduce the Juice Summer Project** with the help of **Ken Nakahara** a senior policy advisor for the Ontario Ministry of Energy as well as an update on the **Green Power Project** at Center Dufferin District High School.

Free Admission

Refreshments will be served prior to and after the presentations

**Doors Open 8:00am
Saturday June 4th
Grace Tippling Hall
Shelburne, Ontario**
